## **Disclaimer for IDFC NEO Equity Portfolio**

The Portfolio Manager follows sophisticated Artificial Intelligence and Machine learning based computing models in various stages of the investment process for IDFC NEO Equity Portfolio. The various stages, input variables, underlying processes, and output formats are a simplified representation of the entire investment process and may cover only limited parts of the actual process. The actual process takes inputs from multiple sources, and involves many other sub steps and complex calculations apart from mentioned in the presentation. The Machine Learning process may incorporate millions of sub processes as part of its learning process and apply the same for output determination. The complexity of this processes may make it impossible/impractical to display the same in its entirety. The investment process is flexible and adaptable to changes as per the market conditions and changes in various factors. The Portfolio Manager reserves all rights to change the investment process in the best interest of the investors. The portfolio does not guarantee any returns on investment nor any capital protection. Investment in equity markets and in financial instruments are subject to market risk.
